OUR ANTI-CONVENT SET

It is time for an aggressive campaign against the Pope's slave pens in America. Four states have passed laws for convent inspection. Owing to papal influence the law in these states has been practically nullified. A woman after 36 years' imprisonment in a Cincinnati convent ,was recently liberated and cannot read or write. All these years she has been harnessed to a laundry machine. These slaves earn from seven to eight dollars per day for the penal corporation. They are fed on slop hash made from mouldy bread and rotten meats donated to the institution by bakeries, restaurants and butcher shops about the city. In the coldest weather they are so poorly clothed that should they be liberated many of them would not have sufficient covering on their bodies to leave the slave pens. Their very flesh and bone and sinew is coined into dollars that drip with blood and are blistered with tears. Crushed, beaten down, lashed with the Cat-o-Nine-Tails, they represent a slavery far worse than the black slavery of former days—if possible, worse than the slaves of the coal mines of Siberia under the regime of the old Russian Czar. To arouse the people on this question we have compiled our "Anti-Convent Set." These books tell the story and if properly circulated will arouse the people. This vile slave system must be torn up from our American soil root and branch and utterly cast from our American life. Read and circulate these books:

Maria Monk, 287 pages	**$ .75**
Confessions of a Nun, 337 pages	**.75**
Thirty Years in Hell, 246 pages	**.75**
Convent Life Unveiled, 216 pages	**.75**
America's Menace, 144 pages	**.75**
Slaves of the God—Smith, 261 pages	**.75**
The total value of this set	**$4.50**
Our special price for six books	**$3.50**

Just think of it—a total of 1,491 pages of real good reading matter. A mighty volume of information that you will never regret spending your money for.

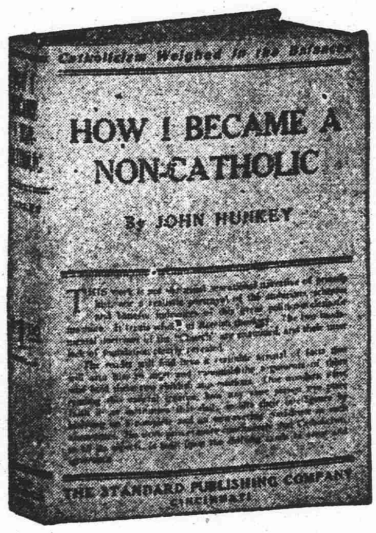
HOW I BECAME A NON-CATHOLIC



This book weighs Roman Catholic teaching in the balances. It is not the usual sensational narrative of priestly lust, nor a realistic portrayal of the ambitions and baneful influences of this great politico, ecclesiastic machine. It treats solely of Romish theology. The author, an ex-Catholic, clearly reveals the utter lack of foundation for the teachings of Rome, either in reason or revelation. His work is an arsenal of facts that fully meet the arguments of those defending these childish superstitions. It is doubtful if any other book on the subject proves more conclusively that Catholicism is built upon the shifting sands of error and ignorance.

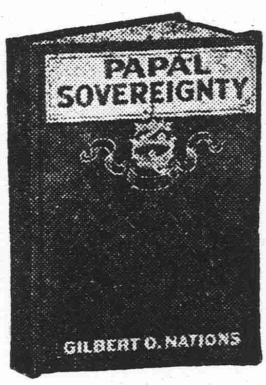
PAPAL SOVEREIGNTY



This new book by Gilbert O. Nations, the brilliant author of "Construction or Pope?" is a timely volume that should be read, re-read and then handed to the man next door. Mr. Nations brings forth in clear, unequivocal language his reasons for believing it an impossibility for those who accept the sovereignty of the Pope of Rome to likewise discharge the responsible duties of American citizenship. The argument is supported by the strongest evidence and is so clear and plausible that it inevitably carries conviction to an unbiased mind. No book of similar nature has been published for a long time that surpasses its absorbing interest. It is replete with astounding suggestions and problems confronting our very liberty and citizenship. It is our duty to acquaint ourselves with these facts as they really exist before they are thrust upon us as an appalling surprise.

GURY'S DOCTRINES OF THE JESUITS

Translated by M. Paul Bert of the French Chamber of Deputies and published in English by Wm. Lloyd Clark for the use of Husbands, Fathers and Brothers in America and other English speaking nations.

During the last thirty years Mr. Clark has used this book throughout the American nation and in the Dominion of Canada in his private lectures to MEN ONLY. Hundreds of thousands of intelligent and patriotic men have heard the speaker read quotations from this book. It has been a common thing for men of education and research at the close of a lecture to come forward and offer the speaker, $25 or $50 and in some cases much larger sums if a copy could be secured for them. Finally the manager and owner of the largest publishing house in America dealing exclusively in Anti-Papal literature decided to publish this volume of secret papal Theology in full in the English language for the use of the husbands, fathers and brothers of America and other English speaking nations that they might study and know something of the hidden abominations of the doctrines and practices of the celibate clergy in the hearing of auricular confessions. The book has been published in full, not a single syllable has been left out. You can read every line of it in English. To publish this accurate translation complete in English on a fine grade of book paper and to clothe it in a fine cloth binding, substantially bound has cost a considerable sum of money but it has been done with faith in the Protestant masses that they will appreciate and make liberal use of this work. For hundreds of years Rome has covered her infamy in these sealed and forbidden books. You can now read and know the truth and the truth will liberate America from Roman rule. The book contains an Appendix exposing Rome treatment of womanhood, the dates when the Jesuit Priests were expelled from every nation of the earth except America, and an exposure of the infamous "Benedictine" liquor made in the monasteries of the Benedictine Monks and sold throughout the world to be used in dives and brothels for the corruption and destruction of men and women. This book in full constitutes the greatest indictment of the papal system ever published in America. It is the most dynamic work in the Protestant world and a copy should find its way into the hands of every male citizen in the nation who desires to know the truth and who has the courage to act after his eyes are open. Several hundred loyal patriots sent their remittance of $5 for this book in advance of the date of publication to aid the publisher in his commendable efforts to produce a work of this kind. Considering the cost of publication, the great value of the book and the handsome style of binding the price is very low. Many works of equal merit sell at from $10 to $20 per volume. If you desire a copy of this great 608 page book send $5.00 right now. This is a brand new book just off the press the first of November.
